

WHY SiVIC?

Silicon Valley is home to tremendous religious diversity. From Atheists to Zoroastrians, we all are challenged to find ways to work together respectfully and harmoniously for the good of all.

SiVIC was founded in 2011 to bring together people from those diverse communities to enable mutual understanding, to share acts of cooperative service, and to be an interreligious voice for Silicon Valley.

SiVIC emerged from discussions among a group of religious communities, non-profit agencies, educational institutions, and governmental offices in Santa Clara County and continues a more than forty year legacy of co-operative interreligious efforts.
